INTERLIFT - AUGSBURG, GERMANY 2013

INEXLEX - IZMIR, TURKEY 2014

EURO-LIFT - KIELCE, POLAND 2014

GENEMEK has been in operation in elevator industry since year 1999.

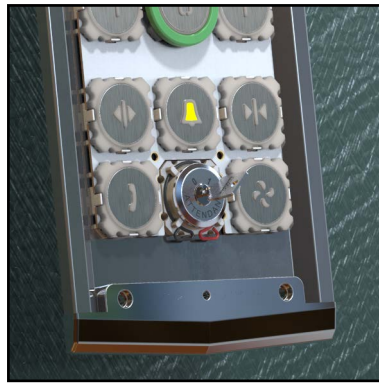

After 18 years of experience, We inspire, design, tool and assemble electronic and mechanical parts in-house.

- 2017** *high performance color TFT indicators*
- 2016** *new facility, LASER cutting / CNC bending*
- 2015** *new plastic injection molding machine facility*
- 2014** *CANBUS type rewiring solutions*
- 2013** *increased production capacity with full automatic SMT line*
- 2012** *In-house plastic Injection, hydraulic forming, tool making ability*
- 2011** *first heartbeats of 9.9mm surface mounted series AVOX*
- 2010** *tool making facility investments, CNC, EDM*
- 2009** *ability to design plastic injection molds, deep drawn parts*
- 2008** *first production of mechanical parts in-house*
- 2007** *solution provider for prewired installations*
- 2006** *moving into new building, surface mount technology investments*
- 2005** *rewiring systems for landing and car operator panels*
- 2004** *accumulator charging devices, two-wire position indicators*
- 2003** *programmable door chimes*
- 2002** *security device for elevators*
- 2001** *programmable LED - LCD position indicators*
- 2000** *infrared security curtain for automatic doors of elevators*
- 1999** *established to design and produce electromechanical parts*
